STORIE DI ARCHITETTURE E DESIGN / ARCHITECTURE AND DESIGN STORIES

European Architectural History Network *Business Meeting 2020*

Established in 2005, the European Architectural History Network supports research and education by providing a public forum for the exchange and dissemination of knowledge of the histories of architecture. Based in Europe, it is open to architectural historians and scholars in allied fields from all countries. We have members from more than 30 countries, and working in many different fields and disciplines. The Network is proud to represent a broad and multidisciplinary constituency with a diverse approach to the built environment. The rapid growth and success of the Network is a clear indication of the demand for – and interest in – an international forum for multiple histories of architecture.

Saluti istituzionali

Luigi Maffei
 Direttore del Dipartimento di Architettura
 e Disegno industriale
